

## UNIVERSAL DISARMAMENT IS UNTHOUGHT OF NOW GIANTS TAKE LEAD IN SEVENTH SERIES GAME

### UNIVERSAL DISARMAMENT IMPOSSIBLE ACCORDING TO PRESIDENT HARDING

**Replying To Letter Urging Abolition of Armies and Navies, President Harding Says Impossible and Even Undesirable.**

Washington, D. C., Oct. 12.—Universal disarmament is impossible, and even its undesirability is now questionable, President Harding said today.

The President's view, which makes it clear that the American delegates at the Arms Conference will seek only a limitation of armament, was stated in emphatic terms in a letter published at the White House today to stem a growing propaganda, most of which with well intentions, is for abolition of armament.

**Statement in Letter To Ella Freed**  
The letter, made public simultaneously with the assembling of the American delegation to the Disarmament Conference today, was addressed to Miss Ella Freed, Brooklyn, N. Y., who had written the president urging him to work for complete disarmament.

"Universal disarmament would be beyond hope of realization," the President answered, "and even its desirability at this time might well be questioned."

**Hundreds of Letters Received**  
Hundreds of letters have come to the White House urging that President Harding insist that armies and navies the world over be wiped out.

### Attempt To Assassinate Klan Leader Is Failure

### Unknown Person Fires Five Shots at Woman Official

(By United Press)  
Atlanta, Ga., Oct. 12.—Police and county authorities, with bloodhounds, are today endeavoring to pick up the trail of the person who fired five shots at Mrs. Elizabeth Tyler, head of the Propagation Department of the Ku Klux Klan, through her bedroom window last night. None took effect.

**Hounds Lose Trail**  
Bloodhounds found the trail of the would-be assassin under her window and after following it for a distance of 100 yards, lost it. All further efforts to find the trail were in vain. Shortly after the shooting some person called up the morning newspaper and phoned "I just wanted to say we got Mrs. Tyler tonight and we're going to get Simmons tomorrow."

### RAIL HEADS NOW PREDICT ANOTHER CUT IN WAGES

**Point To Administration Attitude—Union Chief Stands Firm.**

(By United Press)

Chicago, Ill., Oct. 12.—Railroad executives again are planning to slash the wages of nearly two million rail workers, the United Press was reliably informed today.

The executives of the leading railroads of the nation will meet Friday and the amount of the cut will be decided at this conference. Rail officials believe they will succeed in trimming wages, and point to the attitude of the Administration, which recommended to the Unemployment Conference a cut in rail wages and a reduction in freight rates.

Knowledge of the impending cut reached the heads of the big unions meeting here early in the week but they refused to discuss the question today but stood by their former statement that a strike would result from any cut in wages in addition to the \$400,000,000 reduction ordered last July by the Railroad Labor Board.

### AMERICAN ARMS DELEGATES MEET FOR FIRST TIME

**Private Offices For Each Member of Delegation—Basil Miles May Be Secretary.**

(By United Press)

Washington, D. C.—Members of the American delegation to the Arms Conference, met today to discuss policies and plans. This was the first meeting, although Secretary of State Hughes has held conferences with each one of them previously.

Private offices for Root, Lodge and Underwood are being established in the State Department so that Secretary Hughes can be in close communication for all members while the conference is in session.

Basil Miles, who has been working for Under Secretary of State Fletcher in preliminary arrangements and conferences, will probably be secretary to the American delegation.

### DEMOCRAT NOMINEE FOR SHERIFF POST FILES EXPENSES

**Filed Account Previous To Oct. 5th But Failed To Itemize It.**

**HANDS IN NEW ACCOUNT TODAY**

**Judge Bell Hands In An Opinion That Procedure Conforms To Law.**

T. J. Gleason, the Democratic nominee for Sheriff, came over to Clearfield today and filed his expense account for the primary election. The account shows an expenditure of \$303.15.

Mr. Gleason filed his account with the County Commissioners previous to October 5th, but as he had not itemized the same, it was returned for correction, hence was not filed with the Prothonotary at the end of the fifteen day period following the primary.

It was the general opinion that failure to file an expense account within the period stated in the Act, disqualified any candidate, even though he would receive a majority of the votes cast at the primary, but Judge Bell and local lawyers say such is not the case and the law governing this proposition is like a lot of other (damphool) election laws of Pennsylvania, of no force and effect.

The law provides that if elected, no candidate can take the oath of office until he does file a statement of his election expenses, so it really makes no difference whether a candidate complies with the provision requiring a statement after the primary or not.

### TWO SISTERS ARE BURNED TO DEATH IN PUNKY BLAZE

**Father, Attempting Rescue, Severely Burned—Save Mother and Babe**

(By United Press)

Punxsutawney, Pa., Oct. 12.—Two sisters, Pauline, aged 14, and Ruth Miller, aged 10, were burned to death early today, and their father, Norman Miller, a farmer, severely burned attempting their rescue.

The blaze was due to a defective flue in their home near here, which broke out in a room in which the girls were sleeping. Miller, awakened, rescued his wife and a three month's old babe. The home was totally destroyed.

### ECONOMIC CHAOS EXISTS THROUGH PRICE DISTORTION

(By United Press)

Washington, D. C., Oct. 12.—Rail rates are still more than 100 per cent above the average pre-war level and must take the longest drop in the nation's economic re-adjustment, figures compiled by the National Unemployment Conference showed today.

Wages and retail prices must follow in the downward trend while the producer of raw materials is bearing the brunt of "hard times."

These statistics, from official sources, gave the conference a graphic picture of the economic chaos existing in this country today through the complete distortion of pre-war price levels.

### ROBBERS MAKE TWO UNSUCCESSFUL BANK ATTACKS

**Entered Postoffice and Bank But Failed To Blow Open Safes.**

(By United Press)

Gettysburg, Pa., Oct. 12.—Two unsuccessful robberies, the first at the post office here and the second at the National Bank of Gettysburg, near here, were attempted early today by a gang of motor bandits.

Due to the fact the same methods were used in both attempts, which followed close together, police believe they were the work of the same gang.

**Entered Post Office Through Window**

Early this morning robbers entered the post office here by breaking a cellar window, jimmed the door to the postmaster's office and blew open the outer door of the big vault. Once inside the vault the cracksmen made preparations to blow the inner safe, where the postal funds were kept, but were frightened away and fled, leaving the safe covered with "carpets" which they had placed to muffle the expected explosion. The job was not discovered until the morning mail clerk entered the post office at 4:15. Postal inspectors, state troopers and police are now following clues.

**Bank Attempt Fails**

At Arrendtsville, eight miles from here, people living near the bank heard a muffled blast about 3:15. Ten minutes later a second blast was heard and townsmen, hurriedly donning clothing and rushing to their doors, saw four masked men run from the bank and dash away in an automobile.

Inspection disclosed the fact they had broken into the bank through a cellar window, breaking into the vault. Two charges were insufficient to effect an entrance to the safe and they fled when lights were turned on by persons living nearby.

### Coal Companies Principals In Suit Entered Yesterday

The Whitney Coal Mining Company, of Philadelphia, through their attorneys, Miller & Hartwick, entered suit in Prothonotary Ralston's office yesterday in which they seek to recover \$4,764.82 from the Holler Coal Company.

The plaintiff's statement recites that on April 25th, 1920, they entered into a contract with the Holler Company to take one-half the output of the "Marjorie" and "Macguire" mines of the latter company, located in Clearfield county, at a price of \$3.50 per ton, and that on July 15th, 1920, the contract price was raised to \$4.50 per ton. Despite this contract it is alleged the Holler Company, which is made up of Phillipsburg business men, refused to deliver their coal to the Whitney Company and this suit is brought in an effort to recover the amount of money the Whitney Company would have made on the Holler Company coal, had the contract been kept.

### BODY OF WORLD WAR HERO HERE FROM FRANCE

### TRIAL OF UNION MINERS SCHEDULED TO START TODAY

**West Virginia Miners Are Charged With Murder and Insurrection in March**

Logan, W. Va., Oct. 12.—Trial of nearly 400 miners was slated to open late today. They are charged with murder and insurrection in indictments returned by a special grand jury probing the attempted "invasion" of Logan county by a miners' "army" of 6,000. Trial will be brought before Judge Robert Bland, in circuit court here.

**More Indictments Expected**  
Efforts are being made to arrest William Blizzard, alleged "general" of the miners' army, indicted in connection with the killing of John Gore, a deputy sheriff, at the battle of Blair's Mountain.

Frank Keeney and Fred Mooney, high officials of the United Mine Workers of America, also under indictment in connection with the Gore killing, are in jail in Williamson, charged with another murder.

Another session of the Grand Jury is in progress today. Judge Bland instructed the jury to make additional probe of the miners' march into Logan and additional arrests are expected.

### NATIONAL LEAGUE CHAMPS FORGE TO FRONT IN RACE

**Luck With the Giants Too Much For the Yankee Battlers.**

**BAD HOP STARTS GIANTS SCORING**

**Lucky Seventh of the Seventh Game Puts Giants In Lead.**

Polo Grounds New York, Oct. 12.—Today was a "lucky" day for the Giants. As it was the seventh game of the series, played in the light of the moon, somebody just had to win and the Giant wrecking crew, keyed up by their victory of yesterday, called little Lady Luck to their aid and the game was all over but the shouting. Battle as they might, the Yanks could do nothing to prevent the Giants from submitting to fate and luck, and rubbing to the tune of 2 to 1.

**Yanks Start Scoring**  
Pipp's double, leading off the second, started the music for the Yanks and put fear in the hearts of the Giant rooters. Ward sacrificed him to third and he scored on McNally's single to right. After that, as far as the Yanks' batting was concerned, he scorekeeper could have quit his job.

It was Luck, spelled with a capital L, that allowed the Giants to get at the game. In the fourth frame, with the Yanks leading 1 to 0, Young started the fun, when, with one down he laced the ball toward second. It looked like a sure-out but the ball, directed by the Goddess of Luck, took an unlucky bounce (for the Yanks) and Young was safe. He stole second as Kelly whiffed and E. Meusel, who warmed the hearts of the Giant fans yesterday, again resumed his seat in the hall of fame by slugging out a clean single to center, scoring Young.

But the climax on the day's doings came in the lucky seventh, when with two down Rawlings hit to second, and Ward fozzeled the play long enough for Young to perch safely on the initial sack. Snyder doubled to right, scoring Rawlings, and the day's work was done.

**First Inning**  
Fewster first up was out on a fly to right. Peckinpaugh followed with a double. Miller hit to Frisch who threw him out at first, Peck going to third. R. Meusel hit to the pitcher and was out at first. No runs, one hit, no errors.

For the Giants Burns was out on a fly to right, Bancroft doubled to left center. Frisch flied out to center, Bancroft advancing to third after the catch. Young went out pitcher to first. No runs, one hit, no errors.

**Second Inning**  
Pipp opened the second with a double to left. Ward was out on a sacrifice bunt along third base line, Pipp going to third McNally singled to right scoring Pipp. Schang hit to short, forcing McNally at second. Mays went out a line fly to Rawlings. One run, two hits, no errors.

Kelley started the inning for the Gionas by fanning. E. Meusel went out at first. Pipp was out third to first. No runs no hits no errors.

**Third Inning**  
Fewster singled in the third but was out trying to stretch it into a double. Peckinpaugh singled to short left. Miller went out on a pop fly to Bancroft. R. Meusel fanned. No runs, two hits, no errors. McNally hurt his shoulder sliding into second and Baker went to third. For the Giants Snyder was out at first. Douglas struck out. Burns doubled to left. Bancroft fanned for the third out. No runs, one hit, no errors.

**Fourth Inning**  
Pinn went out at first. Ward went out on pop fly and Baker also pop.

### FORMER LOCAL LAD IS BADLY INJURED IN AKRON, OHIO

**Saves Lady From Injury But Falls Under Fire Truck Wheels.**

Glen Meise, a former Clearfield boy, was badly injured last Friday by a passing fire truck, on the streets of Akron, Ohio, where he is employed, according to reports received here today. The fire truck suddenly became unmanageable and swung up in the side walk almost running down a young woman. Meise seeing her danger flung himself forward and pushed her out of the way. The truck struck him before he could escape and the wheels passed over both legs, breaking them just below the knee.

THANKFUL HE WAS NOT A WOMAN.

The late Lawson Tait, of England, the great woman's doctor, said he never went to bed at night without thanking heaven he was not born a woman. No doctor ever knew better than he what women have to suffer at some times of their lives. It was an American woman, long since passed to her reward, who introduced a combination of roots and herbs called Lydia E. Pinkham's Vegetable Compound, that has proved wonderfully successful in mitigating suffering and relieving diseases of women. It has brought relief to thousands of women who suffered from female ills.

#### GOOD THINGS FOR THE TABLE.

A good salad to serve with game is prepared as follows: Drain the shrimp from a can of penches; arrange the halves of fruit on head lettuce and pour over the following dressing: Mix two teaspoonfuls of sugar with one teaspoonful of celery salt, one-fourth teaspoonful of salt, one-eighth teaspoonful of pepper, a few grains of cayenne, five drops of tabasco and add, gradually, four tablespoonfuls of corn oil, or olive oil, and two tablespoonfuls of lime juice.

**Snuggle Pudding.**—Hollow out little cup cakes and fill with the following mixture: Three cupfuls of prunes rubbed through a sieve or colander, one tablespoonful of gelatin dissolved in two cupfuls of boiling water, one cupful of whipped cream, one teaspoonful of vanilla, and sugar to taste. Mix and set in a cool place to harden, then put into the cake cups when beginning to set.

**Fudge Wafers.**—Prepare a fudge by using two cupfuls of sugar, one-half cupful of milk; one-third cupful of corn syrup, a tablespoonful of butter, boiled to the soft ball stage. Set away to cool, then add vanilla and maple; if chocolate is liked, a square of chocolate may be added and boiled with the mixture. Stir until beginning to thicken, then spread on graham crackers; cover with another and put away in a box to harden. These are nice to serve with tea.

**Allerton Potato Salad.**—Cut a cucumber in small dice; add an equal quantity of thinly sliced celery and half the amount of English walnut meats, broken very small; one-third the quantity of green pepper put through the meat chopper and squeezed dry in a cloth; add two cupfuls of cold diced potatoes and mix with mayonnaise. Serve on a lettuce leaf a slice of tomato, a spoonful of the salad, another slice of tomato, and garnish with mayonnaise and shredded chives.

### BATTING AVERAGES

(Philadelphia Ledger.)

The professional baseball player knows very well that his value to his team and, consequently, his livelihood depends directly on his hitting the ball when he is at bat and catching and throwing it when he is in the field.

Babe Ruth is not paid a fancy salary or lifted to a place of the loftiest among popular idols for merely facing the pitcher when at the plate or holding down the sod while in the field.

He is the monarch of the diamond for "whaling the ball out of the lot." The crowd goes to see him do it, and he very often does it.

Whether it is baseball or less spectacular indoor business, what a man is worth depends on his day-in, day-out performance at the bat, on the bases, or in the field.

No matter how good he thinks he is, he's got to prove it. He must prove it in open competition. He is not playing solitaire. In a fraction of a second he will meet or miss it. If he makes a hit, the crowd goes wild; and, what matters a great deal more, a run or several runs may be set down to the credit of his side. If he strikes out, he merely joins the ranks of the forgotten thousands of ignominious performers.

Nearly everybody makes a hit some time. But to keep it up is quite another matter. In the great game of human life are many erratic performers who once in a while, at fever heat, in a burst of inspiration, surprise themselves and all beholders. But the world prefers to place its trust not on a chance of such erratic brilliancy, but on a certainty of sober, steadfast and methodic discharge of the duty of each working day.

A home run now and then will not offset consistent "weakness with the stick" the rest of the time. The man who neglects his business most of the year cannot expect to make up for it by a fitful spurt of activity here and there.

### YOUR HOUSE MAY BE NEXT

As each home is built, the contractor is careful to select certain locks for the various doors, catches are placed on windows and the house made secure against intruders.

You pay a certain amount of taxes for police to protect you against burglars. When something is stolen from your home there is still a chance that the police may recover the stolen articles.

But what about a fire? When your home is destroyed by fire, if you may have been thoughtful, you collect on your insurance policy—but what company can pay for heirlooms and other priceless articles, possibly held in your family for years? By what magic can those valuable papers be replaced? Who can bring back to life those children that died from burns? What is the answer?

Just as you have provided against burglars by placing locks on your doors, you should provide also against fire by placing a small extinguisher in your home and then go further. Stop the careless habits that cause fire. Remove the rubbish about the home. See that electric wiring is in good condition. Clean up that attic that you started to do last year. Teach your children how to prevent fire and how to use the extinguisher you have placed in a convenient place easy to reach in case of fire.

Practicing FIRE PREVENTION is an invaluable protection.

People living in the vicinity of Weaver and Nichols street corner are having all the thrills they want these days in watching the speed fiends race up and down Nichols street dodging the West Side school children who must cross Nichols street at this point to get back and forth to their homes and a number of them have appealed to The Progress to assist in bringing about safer conditions there. It may be that there are a number of people who do not know there is a school house near this street intersection and it is quite evident that very few know what our maximum speed law allows. This point on Nichols street would be an excellent place to put on an officer or two with stop watches.

The appointment of Dr. A. C. Cowdrick as County Medical Officer will meet with general approval. Dr. Cowdrick is a world war veteran and a general good fellow. His work in connection with the Public Health Service and as the government agent looking after disabled soldiers entitled him to this recognition. He succeeds Dr. John W. Gordon, who has faithfully and competently handled the work of the County Medical Officer for several years.

### WEATHERMAN LENIENT

New York, N. Y., Oct. 12.—Weather conditions for the seventh game of the series looked almost ideal at 10 o'clock this morning. The skies were only flicked with tiny white clouds and the sunshine was rapidly climinating the chill that marked the earlier hours.

### THE THIRD STEP IN PASTEURIZATION

The milk is kept at a temperature of about 130 to 160 degrees for half an hour and then is chilled

This chilling process is accomplished by passing the milk over a series of pipes through which is running a cooling brine lowering the temperature of the milk to about "freezing." Passing over these pipes the minute atoms of milk are separated and come into contact with the pure air which thoroughly cools every small particle of the milk.

Another proof that Clearfield milk comes to your table as pure, if not purer, than any other article of food you eat

## Gridiron Gleanings

By Dick Leisner

That interest in football is not flagging at Clearfield High is shown by the fact that enough men have been reporting for daily practice to form three teams.

This is just what develops a good Varsity, for without plenty of material to fling against the regulars, a coach is badly handicapped.

Coach Crane's lads will face one of the strongest and most experienced football machines in Pennsylvania when they line up against Huntingdon on Saturday. Every player on the Huntingdon team has been playing football for the past decade, their team piling up 418 points to their opponents' 41.

This fall the Huntingdon terrors have been going as strong as ever, smashing up three teams that had good records on successive weekends. Yagerstown, Gettysburg and Cumberland, Maryland High's all being snowed under in the sixties.

Last season C. H. S.'s heavy team was manhandled 68 to 0 by the above named crew, but even with a light, green and undeveloped eleven, the followers of the Red and Black are confident that no such score can be amassed by the visiting veterans.

Ed Butler, a former Clearfield High star, has been selected for right end on the Bucknell College team and played his first game last Saturday.

## BABE RUTH OUT OF GAME-LAME ARM AND LEG

## Will Don Uniform This Afternoon To Give Yankees Luck.

New York, Oct. 11.—Up again after being almost down, the Yankees are still hitting the bumps. Babe Ruth, outstanding figure in the game so far, with his lame arm and leg is lamer still as the result of yesterday's activities at the Polo grounds, and has been warned by his physician that he may work himself permanent damage if he continues in the game.

When the Yanks and Giants draw up this afternoon for the sixth game of the series the portly figure of the great Bambino may be missing from left field. "I don't want him to play if he is taking such a risk, but I couldn't keep him out of it yesterday. He just forced his way in," Miller Huggins, peppy manager of the Yankees, declared today.

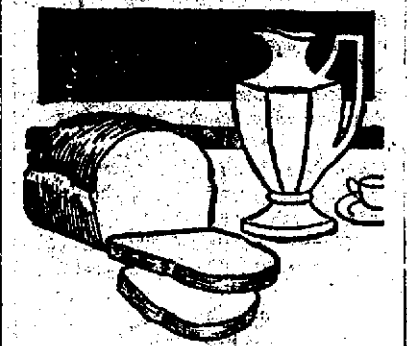

## Babe To Be In Uniform.

Babe Ruth said today he would probably not participate in this afternoon's game between the Yanks and Giants. "But I may be able to play tomorrow," he added. "I can't tell how I will feel that far ahead."

The champion home-run slugger declared his intention of getting into uniform and appearing on the field this afternoon. He probably will be on the bench the greater part of the game and confine his activities to coaching along the third base line.
